Problem Solving

There are 365 days in a year. A Leap Year (2008, 2012) has 366 days, because in those years February has an extra day. The table shows the number of days in each month.

Days in Each Month							
January	31	February	28 or 29	March	31	April	30
May	31	June	30	July	31	August	31
September	30	October	31	November	30	December	31

13. What is today's date? _____

14. How many days, including today, have already gone by this year? _____

15. How many days are left in this year after today? _____

Explain Your Thinking

16. Choose problem 14 or 15. Explain how you found your answer.
